It's a pressure wash thing.
We'll add it to our hot spots for the next scheduled pressure wash.

Thanks.

These have popped up over night all over Noho. MAG/LANK

is there a cleanup procedure for this type of vandalism?

Enjoy The Day and Laugh a lot.

Gross. Unfortunately that area is private property and we can't pressure wash inside.

As with that dumpster, it's Starbucks responsibility and what I can do is contact them to try and get it cleaned up.

If I was a customer, I wouldn't want to park in that lot with that showing.

Hello everyone is there a chance that next time the power washers come to Magnolia they can get this little area

Now that we won the great dumpster war of 2009-2016 this will be a great area for bicycles and motorcycles to park.
